

**Orbital Sciences Corporation
Launch Systems Group**

QUALITY PROVISIONS STANDARD TEXT CODES	
TITLE	NUMBER 1321.5
MATERIAL/PROCESS CERTIFICATIONS SUBMITTAL REQUIRED	DATE 3/05/10

The supplier shall include certification(s) for the material(s) and/or process(es) used in this order and include them in the shipping documentation package for the top assembly only. Subassembly material/process certifications shall be retained by the supplier and shall be made available to Orbital upon request within 2 business days. Certifications shall include, as a minimum; The nomenclature(s) of the material(s) and/or process(es) used; The specification(s) that the material(s) and/or process(es) conform to, and; The person/agency that has certified the material(s) and/or process(es) used. The supplier shall ensure that these requirements are flowed down through the supply chains that support the item(s) on this order.

The Material Certification/s shall include the results of the lot or item acceptance tests required by the applicable specification. The certification will include the principal specifications, including revision numbers or letters, which govern the production of the item. Where quantitative limits are established by the specification, the certification will indicate the actual values obtained during testing. Test data will include the control identity (e.g. lot, heat lot, serial number) of the material or item tested. If Seller is not the manufacturer, Seller will furnish the manufacturer's test certification as described above.
