SAMPLE PRINTED WIRING BOARD (PWB) SUBMITTAL REQUIRED	DATE 1/14/09
<p>The supplier shall furnish test samples, coupons, and microsections for each Printed Wiring Board (PWB) included in the item(s) on this order traceable by lot and panel to serialized PWBs included in this order. A microsection test report from a DSCC approved laboratory showing as applicable compliance to IPC-6012, Class 3, MIL-PRF-55110 or MIL-PRF-31032 requirements shall also be submitted with the coupons and microsections. If these requirements have been complied with on previous deliveries of items from the same traceable lot and panels, coupons and microsections are not required. Instead, include a statement as such which includes Orbital's purchase document number, line item number, and supplier's shipper number that contained the coupons and microsections. The supplier shall ensure that these requirements are flowed down through the supply chains for the subtier suppliers that provide PWBs in support of the item(s) on this order.</p>
